

AI ASSIGNMENT 1: GROUP CONTRIBUTION & ROLE MATRIX

Group Code: AI_A1_G08 | Course: SWE3513 - Artificial Intelligence

Individual Member Contributions & Traceability Log

This document certifies the individual responsibilities, code contributions, Git traceability, and work deliverables completed by each group member for AI Assignment 1.

Member Name & Reg No.	Assigned Role	Requirements Met	Key Files Modified / Created	Git Branch & Commit	Signature
Aisha (22001122)	Data Engineer / Pipeline	Data loading, cleaning, feature scaling, train/test split	src/data_pipeline.py src/utils.py	feature/data-pipeline 3+ commits	Signed
Kassimu (22003344)	ML Engineer (Regression & Classification)	Regression & Classification model, metrics calculation	src/models/regression.py src/models/classification.py	feature/ml-models 3+ commits	Signed
Ineza (22005566)	Unsupervised Learning (Clustering)	Clustering, silhouette score, cluster visualization plot	src/models/clustering.py artifacts/cluster_plot.png	feature/clustering 2+ commits	Signed
Sumaya (22007788)	Inference & API Layer	predict.py schema, CLI validation	predict.py run_all.py	feature/predict-cli 3+ commits	Signed
Mahgoub (22009900)	QA & Documentation Lead	pytest test suite, test log generation, UI/UX specification	tests/test_pipeline.py evidence/TEST_LOG.pdf	feature/testing-qa 3+ commits	Signed

Declaration & Academic Honesty Statement

We hereby declare that all work presented in this submission was executed collaboratively by the group members listed above. Generative AI tools utilized during the development process have been transparently documented inside evidence/AI_USE.md.
